Principal's Missive

Sanmati has been a trail blazer in the field of education with an inestimable legacy of a quarter plus century, striving to achieve global standards, grooming and incubating future imagineers.

Sanmati School is committed to build equity and excellence in education in a serene environment with a stunning lush green natural beauty which elevates the kids to a different level. Our curriculum with ever evolving and stimulating dynamics, the education has become contemporary, contextual, relevant and value based to the students. A symphony of cultures and arts, effective student's support system, redressal of learner difficulties enable kids to be competent and humane. Sanmati provides stress free, joyful, purposeful and meaningful education. When the students step out of the school campus, are confident, empowered and independent. A unique combination of best minds, great mentoring, cutting edge technology, awesome and amazing infrastructure and passion for spreading the light of education ultimately lead to holistic student's growth. Paramount academic skills, immense potential and opportunities mandate them to carve out a bright NICHE through which innovators of tomorrow emerge. Sanmati shapes and moulds the frontier of knowledge and promotes its dissemination and ensures seamlessly accessible to all. Our thrust of core strength lies in promoting and relating education with all the values-moral, religious, logical cultural, economic and social. Life skills are the plinth and the corner stone of an alluring curriculum in consonance with overall national spirit.

The common factors running across all the initiatives of Sanmati are to shape, spin and mould the entire specturm of education learner friendly, contemporary and futuristic.

BEING
GROWN UP
IF YOU CAN'T
BE CHILDISH
SOMETIMES**

Cultural activities help students gain an appreciation of the different people who create their school. Learning about other cultures broadens a student's life experience. This promotes understanding in students who will compete in global scenarios. These activities will make it possible for stronger communities where pride and prejudice does not exist and students act for more societal good. The entrancing music and ragas are universal and transcend the barriers of culture and language.

Pre Primary

The entire gamut of pre-primary education is centered up on the multifaceted activity driven learnings that present a unique experience to the budding minds. Role plays and power point presentations promote a monumental significance in a child's academic profile. Activities outside the classrooms overtly or covertly enrich, enhance and endear their erudition and dazzle their learnings. Experimental learning is the new buzz word in the campus.
