

Annual Report

The previous academic session 2020-21 has gone with a sore on all of us because it took away some of our dear ones. But as it is said The Show Must Go On... similarly the duty must go on whatever comes in our way. We have to pass it under the light of the God's grace despite being affected. Below is the entire narrative of the accomplishments that our students brought to our school.

We have been the protagonists in the field of education ever since our inception. We have had an array of years, propagating academic well being. We have heaped together in the rain and shine.

The effect of pandemic taught us many things. Some of them were how to keep the life going on, the teaching learning must be on its way ahead... The learners were never left behind. The parents, students and the teachers collectively contributed to keep classes alive.

During the lockdown not only the studies but activities were also conducted successfully. Our active students from Nursery to Class XII kept their leaning and performing spirits high even though the physical learning was affected.

The co-curricular activities are given the utmost importance which helps the kids to face real life situations. In order to inculcate & instill value based education. Even though the students missed the peer learning whole session but still they enthusiastically performed in various online activities and competitions like – Fitness Challenge, mask making, Bhajan, Dialogue speaking, Important days' celebrations, Slogan Writing, Dancing, Singing, Drawing/Paintings etc. These activities kept the learning and performing spirits of students high. Various fitness activities were conducted online so that the students can be benefitted with sound health.

The gel of Trio- Students, Parents and Teachers kept the learning wheels on roll. The extent of cooperation received from parents enabled the teachers to help in making the students at par with emotional as well as mental growth.

The Academic result of Session 2019-20 had been wonderful. The students outshined themselves in various fields.
